HOMO SAPIENS V SOJU RESNICE	161

Ženske bodo hotele biti kot moški, tujci bodo hoteli staroselske pravice in demokracija jim bo to dala. Tatovi, goljufi in moči željni kriminalci bodo želeli pomembne državne funkcije, kar jim bo demokracija omogočila, in ko bodo ti demokrasko prevzeli oblast, se bo rodila hujša tiranija, kot je vladala za časa katere koli monarhije ali oligarhije.

Sokrat¹

Prerokba izpred skoraj 2.500 let je naravno pravilo, kar potrjujejo tudi stranpoti sedanje družbe. V času osamosvajanja Slovenije se je zdelo, da nam je družbenopolitično vzdušje v Evropi vzor, ki ga moramo čim prej doseči. Toda demokracija se je izkazala za fatamorgano. Po 30 letih je več kot jasno, da se je demokracija v Evropi demonizirala. Širijo se blazne ideje, sprevrženost, samouničevalnost, dvojna merila, vladavina laži in kaosa. Resnica pa, ne samo da je nezaželena, pač pa je celo preganjana. Kako je to mogoče?

Zlikovci družbo silijo v nenaravne, nezdrave in konfliktne odnose. Družbenopolitični sistem (globalizacija), ki širi negativne deviacije, je vsiljen od zunaj, s točno določenimi cilji. Pod krinko dobrega, na odločujoča mesta v družbi nastavi osebke, ki so predani zlu. One, ki resnično delujejo za dobro ljudi, pa z izsiljevanjem in s pritiski odstraniti. Ti psihopati vodijo družbo v trdo zločinsko diktaturo.

Danes so deviacije že na vsakem koraku družbenega dogajanja prav dobro vidne. Krmilo družbe prevzemajo sejanci zla, laži in prevar. V taki družbi je znanost zlu lahko le prostitutka. Razlika med znanostjo in družbo je ta, vsaj v Sloveniji, da se znanost sploh ni nikdar rešila protislovenskih okov. V istem času pa je zlo v Evropi počasi izpodrinilo strokovnost v znanosti.

Ker ima znanost v družbi pomembno vlogo ter je hierarhično vejana in je poleg vsega še bistveno manjša kot celotna družba, si jo je zlo podredilo že prej. Danes v družboslovno znanost ni mogoče prodreti z resnico. Znanstveniki na ključnih položajih so postali čuvarji prevar, ki budno pazijo, da od zunaj zapovedano in dopuščeno doktrino (priselitev Slovanov, slovenščina kot južno-slovanski jezik, itn.) ne bi karkoli ogrozilo. Vidni slovenski zgodovinarji in slovenisti blokirajo resnico, manipulirajo in lažejo v škodo slovenstva. So izvajalci diktatorskega sistema v katerem si tisti, ki so jih potisnili v ozadje, ne upajo izpostaviti, da jih ne bi izločili.

Dogajanje, ki ga v slovenski (in evropski) znanosti lahko opazujemo že najmanj 20 let, se v zadnjih letih brutalno vsiljuje še družbi. Demokracija očitno ni zmožna ustaviti zla in onemogočiti suženjstva in diktature psihopatov, ki jim ljudje slepo nasedajo. Rešitev je v trdni skupini široko razgledanih državnikov, predanih resnici in pravici, slovenstvu in svoji državi, niso podkupljivi ter potrjeno niso psihopati.

1 Democracy Will Pay ..., Sussex County Corruption Watch, vpogled: 11.7.2022, <https://sussexcountycorruptionwatch.com/2022/05/10/democracy-will-pay-because-it-will-try-to-tailor-to-everyone/>

Women will want to be like men, foreigners will want the rights of the natives. And democracy will give it to them. Thieves and fraudsters will want important government functions. And democracy will give it to them. And when thieves and fraudsters finally democratically take authority because criminals and evil-doers want power, there will be worse tyranny than in the time of any monarchy or oligarchy.

Socrates

Almost 2.500 years old oracle is a principle for life, which is proving wicked ways of the modern society. In the times of the independency of Slovenia, it seems to us that the sociopolitical atmosphere of Western Europe is our goal that must be achieved as soon as possible. Well, in the end, democracy shows to be an illusion. After 30 years is obvious enough that democracy in Europe walked into a demonic grip. Insane ideas, over-turning, self-destruction, different criteria, a tyranny of lies, and chaos. Not only that the truth is undesired, but it is even chased. How is that situation possible?

Evildoers are leading society into unnatural, unhealthy, and conflicting relations. A sociopolitical system (globalization) that spreads excessively negative deviations, is being forced from outside, just to implement specific goals. To set psychopathic subjects who serve evil in the key positions in society, under the pretense of good ... and parallelly, to remove the ones who really serve for the good of the people by blackmailing and perverted pressures. The mentioned psychopaths lead society to a tough dictatorship.

Unusual deviations in society can notice the last doubting Thomas. The leadership of society is going into the hands of sowers of evil, lies, and swindles. In a society that is trapped in such a condition, science can only be a prostitute of evil. The crucial difference between science and society, at least in Slovenia, is that science never relieves the burden of the anti-Slovene ties of the Serbian and Communist Yugoslavia. At the same time, European science has been slowly subduing evil practices.

Hence science has a very important role in society and is hierarchically organized, and moreover is of a much smaller extent than society is, it is falling under the influence of evil much earlier. Nowadays, social science does not accept any truth, even being proved from different aspects. Scientists in key positions become guards of swindles who watch constantly that prescribe and allowed doctrine (Slavic settlement, the Slovene as the South-Slavic language, etc.) would not be endangered by anything. The exposed Slovene historians and linguists (curators) are preventing the truth to come over, they manipulate and lie to the disadvantage of the aboriginal people. Those "scientists" perform a dictatorship system that no one dares to oppose for not to be pushed out of existence.

Development in the Slovene and European science that can be observed for at least 20 years, is being forced brutally yet into society lately. Democracy is obviously unable to resist evil, and prevent the slave dictatorship of psychopaths;

since people blindly believe them. The solution is in a firm group of broad-minded Wiseman, devoted to the truth, justice and right, to their people and country, and they are not corruptible and have a certain proof not to be psychopaths.
